Morning,

We want to thank you guys for an excellent job! We could notice the extra warmth in the house instantly and the basement itself looks and feels so much more solid and tight. Please thank the guys that did it

(I think it was Aaron and Tyler?) they did a great job- they were very professional and did clean work!

Thanks Again

Mike Bertram

44 North St. Augusta

Mike, No one has to be there. And yes they will poly the windows. Please make sure everything is moved away from the walls 4 feet.

Respectfully,

Michael Trytek

Sounds Good! Does someone need to be there, or can the basement door just be unlocked?

Also, there are two basement windows- do those get masked off and then foamed around the edges?

Thanks
